

Dear Friends and Visitors of Southeast AgNet:

World Renown Portrait Photographer Ken Whitmire of Yakima Washington will be in Florida at some time during 2009 for a visit with family members here at Southeast AgNet. In addition to being one of the most well known photographers in the world, I am proud to also call Ken my cousin. My wife Robin and I and the rest of us here at Southeast AgNet look forward to hosting a rare visit by Ken at some point during this calendar year. Now 79 years of age, Ken is doing well but continues to work only selectively. Joined in the operations of his Yakima studios by a son and other associates, Ken says he may soon consider taking life easier at his beachfront cottage in Ocean Shores, Washington.

I write this to let you know that Ken Whitmire's visit to Florida later this year presents a unique and rare opportunity for a few of our friends and associates who may be interested, to get a world-class family or business portrait made by one of the world's leading portrait masters. There is nothing in it for us at all. In fact, we plan to invest in another portrait of our own while he is with us this year, and Ken has graciously offered to plan some extra days in the region if any of our friends or associates may also be interested. We simply want to help Ken take best advantage of his time here, AND we want to turn anyone we know on to this once-in-a-lifetime opportunity to meet a very unique individual and obtain a very unique piece of art that you will cherish forever featuring family members and loved ones.

Please take a few moments to visit the website at <http://www.portraitdecor.com/> to learn more about Ken Whitmire and how he long ago revolutionized top quality portraiture worldwide. There is good reason people from all around the globe seek out a Ken Whitmire original when they want a piece of family-featured photographic art to adorn their walls and castles for all of time.

The dates for Ken's Florida visit are not yet set, but if you would like to discuss this possibility in more detail meanwhile, please contact me directly anytime.

Sincerely,

Gary Cooper, Founder & President
